

Redinger Laboratories has been locally manufacturing world leading Hair Removal (depilatory) waxes in South Africa since 2012. We produce only Pine Rosin (tree sap) Free depilatory waxes to world class European wax standards for the Professional in Salon use market as well as Home Use waxes. Our waxes are hypoallergenic and designed for even the most sensitive skins. We have the ability and capacity to manufacture a variety of private label products that include: Depilatory Wax, Lotions, Body Creams, Personal Care Products and UV Cure Nail Gel Products. We supply a number of South Africa's top brands with private label products.
